

Dear City of Greencastle Citizen's:

The Department of Public Works will be starting the annual leaf pickup beginning October 24th and running through November 23th to complete our leaf pickup season before the Thanksgiving Holiday. We advise all in the city limits to rake their leaves only (no limbs or other debris) to the side of the curb or between the sidewalk and the street. For those who do not have a curb or sidewalk please put your leaves out near the street, but not in it. We will be following the trash routes so please have them out the day before because we only go through each day's route once during the week unless we are ahead of schedule. Weather, Holidays, or Breakdowns may cause us to get behind in such cases we will try to run the routes a day ahead of time. Holidays will be run the day before if possible along with the regular route; these dates are November 8 and 11 this year. We strive to notify the public of the leaf pickup and updates for it by the newspaper, the radio and now the internet on the City of Greencastle's website.

Thank You for your cooperation!

City of Greencastle
Department of Public Works
Street Commissioner,
Brad Phillips
